“If decisions about education policy and practice started by asking what works for the child, how would resources — time, space, and human—be arrayed to ensure each child’s success? If the student were truly at the center of the system, what could we achieve?”

Abraham Maslow's Hierarchy of Needs

Abraham Maslow's Hierarchy of Needs

Each moment we live never was before and will never be again. And yet what we teach children in school is $2 + 2 = 4$ and Paris is the capital of France.

What we should be teaching them is what they are. We should be saying: “Do you know what you are? You are a marvel. You are unique.”

In all the world there is no other child exactly like you. In the millions of years that have passed, there has never been another child exactly like you.

— *Pablo Casals*

There can be no keener revelation of a society's soul than the way in which it treats its children.

—*Nelson Mandela*

To the doctor, the child is a typhoid patient;
to the playground supervisor, a first baseman;
to the teacher, a learner of arithmetic.

At times, he may be different things to each of these
specialists, but too rarely is he a whole child
to any of them.

*—From the 1930 report of the White House Conference
on Children and Youth*

With every interaction in a school,
we are either building community or destroying it.
- James Comer
